As pictured at Henley Mens Shed, it took some time to find just the right person to make aprons for the blokes in the Shed and around the workshop, and the right fabric is bull denim (tough and hard wearing) even local builders and joiners are impressed.

Now you too can access these individually crafted aprons for your shed/workshop, just get in touch with Elya Matthews using the contact details below and she will stitch up the goods for you.

Each has adjustable neck band and straps to tie at the back or front, the chest pouch also has a place for your pencil. The central waist pouch is nice and large, with a side pouch for ruler and 2 nail punches (or whatever you like to carry around).
